2010	Secondary Education main subjects : Science, Mathematics, Social Science Passed out with 81.08%	Lions High School, Manavadar

## Project Details

---

### 1. Web Project::

I was working in a startup “world4engineers.com” which provides notes of technical subjects of computer science and engineering branch. This website was awarded as best student start-up award by TATA FIRST-DOT Entrepreneurship challenge in 2015. The team size was 7.

### 2. Android app on OCR technology::

As a final year university project, we have developed an android app that uses ocr technology and transfers image into text. We can use that text into day-to-day life application like, google search, google map, dictionary search, editable text format and much more.

We were a team of 4 members.

3. New Track CRM : I have worked on a CRM project developed for VisaZone Fondation, Ahmedabad. The project was built using Angular + Spring Boot.

## ***Current Job***

---

PurpleDocs, June, 2016 - present

Currently, I am working as software engineer at PurpleDocs, Vadodara.

PurpleDocs is a startup in the field of health care.

We manage the health care records generated at hospital.

I am working upon enhancing our existing products - Pluto and Nix and also developing new products, using technologies like core java, swing, restlet, Jenkins, Spring.
